BELKIN | N Wireless USB Adapter

Share your broadband Internet connection

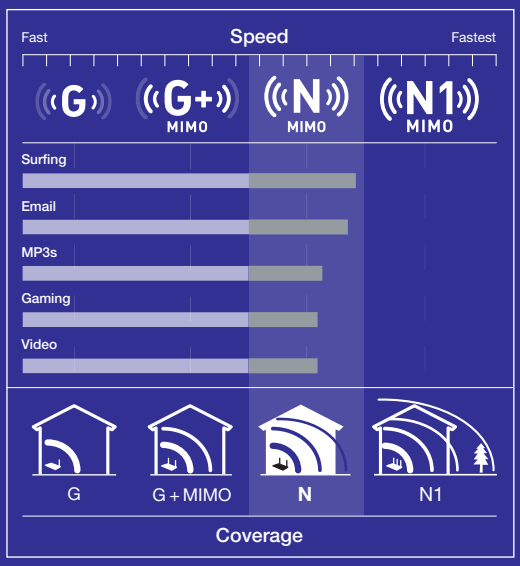
The Belkin N Wireless USB Adapter connects your notebook or desktop computer to your wireless network. With a Belkin N Wireless Router as the central connection point of your network, your computers can share your broadband Internet account. Powerful N networking lets you exchange documents, share resources, and distribute large video and music files on your network, at a link rate of up to 300Mbps.*

For better wireless performance, use the Belkin N Wireless Router with N Wireless Notebook or Desktop Cards, or USB Adapters connecting your client computers.

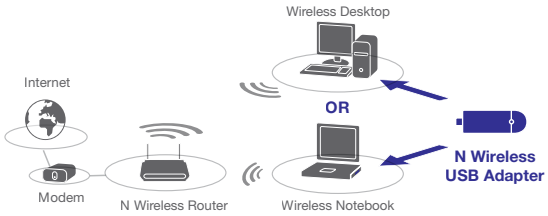
What is N Wireless**?

Based on the 802.11n draft, N wireless** enables multiple receivers and transmitters to send and receive data through the air, using Intelligent MIMO (Multiple Input Multiple Output) spatial multiplexing techniques. This smart-antenna technology builds upon the widely deployed 802.11g standard by increasing speed, coverage, and reliability of wireless systems. Providing greater range and faster speeds, N wireless** offers a quick and efficient way for people to distribute music, photos, and files among the networked computers in their homes.

ENHANCED
Speed & Coverage



BELKIN | N Wireless USB Adapter



System Requirements
PC with available USB port
PC ruunning Windows® 2000, XP, or Vista™****

Specifications

Interface
USB 2.0

Standards
IEEE 802.11g
IEEE 802.11b
IEEE 802.11n draft**

Operating Range
Up to 365m.***

Security
WPA2-Personal, WPA
64-bit, 128-bit WEP encryption

Link Rate*
Up to 300Mbps in 40MHz Channel Mode

Package Includes
N Wireless USB Adapter
Quick Installation Guide
CD with Installation Software and User Manual
USB Desktop Stand

*NOTE: The standard transmission rate—300Mbps—is the physical data rate. Actual data throughput will be lower.

**Belkin N Products: N Wireless Router (F5D8233-4), N Wireless Notebook Card (F5D8013), N Wireless USB Adapter (F5D8053), and N Wireless ExpressCard Adapter (F5D8073) are compliant to the IEEE 802.11n draft specification. Although Belkin incorporates all mandatory elements of the IEEE 802.11n draft specification and designs the software to be upgradeable once the standard is finalized, Belkin cannot guarantee upgradeability.

***Products were tested in an outdoor environment. Actual speed and distance will vary depending on interference, network traffic, building materials, and other conditions. Range and speed are determined using a Belkin N Wireless Router (F5D8233-4), N Wireless Notebook Card (F5D8013), N Wireless USB Adapter (F5D8053), and an N Wireless ExpressCard Adapter (F5D8073).

****This product will not be compatible with Windows Vista at the time of initial production. Future versions of this product will be compatible with Windows Vista.
